

THRUFLOW™

Interlocking Panels

THE COMPLETE FLOORING SYSTEM FOR DOCKS, DECKS, PATIOS AND WALKWAYS

DOCKS

THRUflow is one of the best alternatives to traditional systems. Strong, easy to install, light in weight, interlocking tabs and will save labour. Furthermore it is anti-slip, maintenance free and drains the water and debris straight away. It allows sunlight through for the benefit of our valuable marine life.

DECKS

THRUflow is very suitable for your deck. Anti-slip, maintenance free and will not rot or stain. No water will sit on the surface. A very easy to fit deck for life.

WALKWAYS

THRUflow is the best solution for walkways in our vulnerable nature reserves. It lets the sunlight through and allows the nature to keep on growing.

POOLS

THRUflow is 360 Degree anti-slip. Very important around swimmingpools and wet areas. Be safe, use THRUflow.

STRONG ?

We know it is. It is also attractive and available in 3 colours, 3 lengths and 2 qualities, commercial and domestic.
